International Journal of
Human Factors in Manufacturing

Author Index to Volume 3

Aggarwal, N., see Wilson, J.R.
Aghazadeh, F., see Hirschfeld, R.A.
Alasoini, T., Transformation of Work Organization in Time-Based Production Management: The Case of Three Finnish Electronics Plants, 319

Badham, R., New Technology and the Implementation Process, 3
Badham, R., Preface to Special Issue on Systems, Networks, and Configurations, 1
Badham, R., and Wilson, S., Smart Sociotechnical CIM Systems: Beyond Island Solutions and Turnkey Philosophies, 117
Barfield, W., Shields, R., and Cooper, S., A Survey of Computer-Aided Design: Implications for Creativity, Productivity, Decision Making, and Job Satisfaction, 153
Bessant, J., Commentary, 85
Bessant, J., see Levy, P.
Bratton, J., Cellular Manufacturing: Some Human Resource Implications, 381
Burnes, B., Structure and Culture: Putting the Human Dimension of CIM in Perspective, 183
Butler, J., Book Review, 103

Cacioppo, A.J., see Koubek, R.J.
Chapleski, R.C., see Hirschfeld, R.A.
Clark, P., and Newell, S., Societal Embedding of Production and Inventory Control Systems: American and Japanese Influences on Adaptive Implementation in Britain, 69
Cooper, S., see Barfield, W.

Dankbaar, B., Commentary: Technological Change as a Social Process, 95
Drury, C.G., see Hou T.-H.

Edquist, C., Commentary: National Systems of Innovation and Analytical Distinctions—A Conceptual Reflection, 99

Fleck, J., Configurations: Crystallizing Contingency, 15

Globerson, S., see Shtub, A.
Goldhar, J.D., see Lei, D.
Gude, D., and Schmidt, K.-H., Preventive Maintenance of Advanced Manufacturing Systems: A Laboratory Experiment and Its Implications for the Human-Centered Approach, 335

Hirschfeld, R.A., Aghazadeh, F., and Chapleski, R.C., Survey of Robot Safety in Industry, 369
Horn, J.A., see Koubek, R.J.
Hou, T.-H., Lin, L., and Drury, C.G., An Empirical Study of Hybrid Inspection Systems and Allocation of Inspection Functions, 351

Kidd, P., Book Review, 209
Kiviniity, J., see Mattila, M.
Koubek, R.J., Horn, J.A., Cacioppo, A.J., and Phillips, C., An Approach for Determining Suitability of

Knowledge-Based Systems in the Workplace, 253
Kwon, Y.G., Book Review, 309

Lei, D., and Goldhar, J.D., Implementation of CIM Technology: The Key Role of Organizational Learning, 217
Levin, N., see Shtub, A.
Levy, P., Bessant, J., Tranfield, D., Smith, S., and Ley, C., Organization Design Implications of Computer-Integrated Technologies, 169
Ley, C., see Levy, P.
Lin, L., see Hou, T.-H.

Majchrzak, A., Commentary, 89
Manders, A.J.C., Management of Technology, Corporate Culture, and Educational Paradigms: Lessons from a Case Study, 231
Mattila, M., and Kiviniity, J., Job Characteristics and Occupational Safety of Manufacturing Jobs at Different Levels of Automation, 243
McLoughlin, I., Organizational Politics, Advanced Engineering Systems, and Human Factors, 37
Morrison, D.L., Guest Editorial: Organizational Aspects of Manufacturing Technology Management, 111

Neely, A.D., see Wilson, J.R.
Newell, S., see Clark, P.

Peeters, M.H.H., see Pot, F.D., Integral Organizational Innovation in the Dutch Clothing Industry: The Myth of New Production Systems, 275
Phillips, C., see Koubek, R.J.
Pot, F.D., see Peeters, M.H.H.

Ramsay, E., see Samson, D.
Rasmussen, J., Commentary: What Are We Looking for in the Black Box? 91

Samson, D., Sohal, A., and Ramsay, E., Human Resource Issues in Manufacturing Improvement Initiatives: Case Study Experiences in Australia, 135
Schmidt, K.-H., see Gude, D.
Shields, R., see Barfield, W.
Shtub, A., Levin, N., and Globerson, S., Learning and Forgetting Industrial Skills: An Experimental Model, 293
Smith, S., see Levy, P.
Smith, T.J., Book Review, 403
Sohal, A., see Samson, D.

Tranfield, D., see Levy, P.

Webster, J., Chicken or Egg? The Interaction between Manufacturing Technologies and Paradigms of Work Organization, 53
Wilson, J.R., Neely, A.D., and Aggarwal, N., Allowing for the Human Element: Human Factors in Small Manufacturing Enterprises, 193
Wilson, S., see Badham, R.
